

6 x 600 x 400

6 x GN 1/1

10.500 W

270° C

102 Kg.

400 V - 50/60 Hz

### CARACTERÍSTICAS features

- |                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                             |
